# BE FUTURE READY FRAMEWORK

How to map and grow the skills needed for a fully digital and automated future

**FutureWe** COMMUNITY

💡 EXPLORE    ♥ RELATE    ⚙ DESIGN    🚀 DELIVER    📖 SHARE

1. Do Survey + get your report • bit.ly/future_survey • bit.ly/future_survey_students

2. Work with us to apply these options:

## EVERYONE 🌐

### BUSINESS 📈

Use 5 domains to keep track of where your individual job tasks are up to

Use survey to help get support for a 10% time side project

### SCHOOL 🎓

Let framework guide lesson planning to ensure it also preps learners for the future

Use report to highlight skills that also help students be at their best in class today

Help a parent support and understand their students non-academic abilities

Give your class clear project planning steps (5 domains)

Help students explain their study/ career decisions

**INDIVIDUALS**

Use framework to prompt yourself to think ahead to what a fully digital, AI era means

Use the survey report to uncover and then celebrate your strengths

Use the survey report to select literacies you need to focus on growing

Repeat the survey to track your progress over time

Map training options against how well they support your growth

Use the survey report to inform what other skills are needed when you team-up with others

**GROUPS**

Use the framework to explain your business/ product strategy to others

Survey your overall efforts to check where your progress fits vs competitors

Guide planning so learning and development programs are also preparing workers for the company's future

Survey a team to help leaders understand their team or cohorts strengths and weaknesses

Have a team survey each other to prompt discussions about their strengths and weaknesses and how to support each other

Use the survey reports to create balanced teams

Use the domains to plan + guide project progress

Use the framework to ensure a common language of skills and growth across the team

Map out the tools, products and services you use to ensure it best supports you

Survey your community to see what problems need solving

Remix the framework literacies to create a custom version just for your team or organisation

Guide unit planning so curriculum also preps learners for the future

Educate cohorts of students about future-ready career planning

Educate parent groups about how your school is helping students get future-ready skills
